EXAMINER'S AMENDMENT

1. The amendment filed on 06/05/2006 has been fully considered and made of record. Cancellation of claims 1-36 is acknowledged.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title:

Replace "Apparatus for installing a length of wire and method" with --Apparatus for installing a length of wire--

In the claims:

- In claim 37, line 7, replace "tool; and ." with --tool; and--
- In claim 37, in the last line, replace "the seat.." with --the seat.--

3. The following is an examiner's statement of reasons for allowance:

The prior art does not teach, in combination with all other claim limitations, a wire gripper actuator comprising a position sensor located on a wire gripper actuator, the position sensor generating signals indicative of the position of the free end of a movable part of the wire gripper actuator with reference to a seat in registry with the free end, a flow regulator operatively connected to the wire gripper actuator, and a bypass valve

Art Unit: 3729

selectively movable between an opened and a closed position in response to the signals received from the position sensor, whereby the bypass valve is moved to the opened position when the free end of the wire gripper actuator is proximate the seat.

Further, the prior art does not teach, in combination with all other claim limitations, a wire tension mechanism comprising a wire feeding actuator having a movable part with a free end, the movable part of the wire feeding actuator being selectively movable between an elongated position and a retracted position, the wire feeding actuator being configured and disposed so that a second end of a swing arm moves downwards when its movable part is at the elongated position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Livius R. Cazan whose telephone number is (571) 272-8032. The examiner can normally be reached on 7:30AM-4:00PM.
